

1) Which President doesn't belong in the group? Why? (Assume Trump has been inaugurated) John F. Kennedy, Harry Truman, Richard Nixon, Donald Trump, Ronald Reagan
 There were a lot of different correct answers here. I was thinking that the election was a huge upset for Trump. He was way behind in the polls. The other were all favorites. Other correct answers: Trump is only non-politician. Truman only one not in a televised presidential debate. Trump only one elected in the 21st Century. Trump has no military service. Reagan was the only governor. Trump is the only one alive. Nixon is the only one who resigned. Kennedy is the only catholic.
 98% correct (some wrote a name with no reason)

3) Identify the Hudson Valley structure below.

This is the Wilderstein house in Rhinebeck. Always a great visit. 100% correct

7) Identify this building in the New York skyline. Hint: This view is looking North from the Empire State Building.

This is 432 Park Avenue. On a trip to the city one weekend I looked at the NY skyline from New Jersey and noticed an unfamiliar building. In my investigation I discovered this building and a few other recent additions to the ever changing NYC skyline.
 93% correct

9) What is the common link between the following recording artists? Alice Cooper, 50cent, Psychedelic Furs, Foreigner and Phish. Hint: Peace Man 🙌
 The answer is they all recorded at Bearsville Studios. Alice Cooper "Hey Stoopid", 50 Cent "Power of the Dollar", Psychedelic Furs portions of "World Outside", Foreigner portions of "Mr. Moonlight", Phish "The Story of the Ghost" 71% correct

2) In the image below there is a glass of water on a scale. When you immerse your finger into the water without touching the glass what happens to the reading on the scale?
 Increases Decreases Remains the Same

If you actually tried this with a kitchen food scale you saw that the glass and water actually get heavier when the finger is immersed.
 43% correct

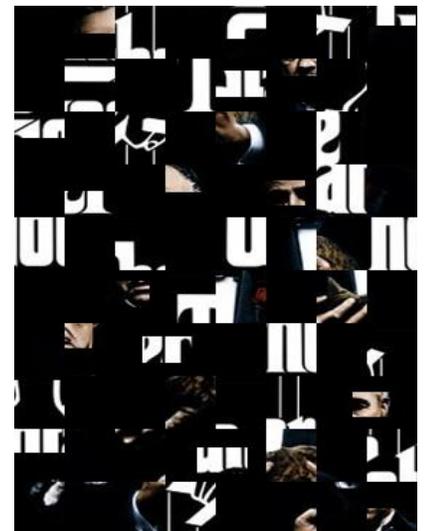

4) What person, not a "Seinfeld" regular cast member, can be seen in every Seinfeld episode?
 Superman
 71% correct

5) According to Forbes 2016 data, the Nike brand is more valuable than the Wal-Mart brand. True or False
 According to Forbes 2016 most valuable brand data, Nike was #18 and Wal-Mart was #22.
 64% correct

6) Here's some Google math for you: The cost to buy Oriental Ave (\$100), Vermont Ave (\$100) and States Ave (\$140) in Monopoly divided by the number of states (17)* whose capital is also the states most populous city times the number of different types of liquor (5)** in a Long Island Iced Tea divided by the number of Senators in the US Congress (100). After performing the above calculations what number are you left with? $(100+100+140) = 340$, $340 / 17 = 20$, $20 * 5 = 100$, $100 / 100 = 1$
 The answer is 1
 * AR, AZ, CO, GA, HI, IA, ID, IN, MA, MS, OH, OK, RI, SC, UT, WV, WY
 ** tequila, vodka, rum, triple sec, gin 57% correct

8) Identify this scrambled Movie Poster.

This was an easy one. Everyone got the Godfather. 100% correct

10) Identical twins marry identical twins and each couple has children. With regard to genetics which statement is more accurate?
 A) The children are cousins. B) The children are siblings.
 Identical twins share the exact same genetic material. So in this case, the four "sets" of DNA (4 parents) are the same as only two sets (2 parents).
 57% correct
