The numbers above all have something in common. What is it that they have in common and what are their significant factors called?

These are all "vampire" numbers and their factors are called "fangs". I saw this on an episode of Jeopardy and I thought it was interesting. The only way for us mortals to get this answer was to google the list of numbers. 77%

- 4 What ties the three images below together?

George Carlin's t-shirt, the Tarzan movie poster and the Alice Cooper album cover were all created by artist Drew Struzan. 32%

There was one other answer that got credit also. One person replied "They were all the subject of a joke on The Simpsons". That answer probably applies to an infinite number of questions!

- 7 Decipher the image below.

(See Image on Questions Page)

Hudson plus Val plus Lee	Hudson Valley	
gloves minus the g	Loves	
Bin plus e plus water	Binnewater	74%

- 9 What was the surprising discovery made by Agence France-Presse when investigating a fraud case in Paris?

A marble bust of Jim Morrison was stolen from his grave site in Paris in 1988. 37 years later the French authorities found it in May of 2025. 56%

- 10 A great World Series this year has inspired a baseball question. Name the 4 players who have won rookie of the year and 2 MVP's all with the same team.

There were actually six players that fall into this

category: Aaron Judge, Mike Trout, Cal Ripken Jr., Johnny Bench, Willie Mays and Albert Pujols.

30% got four of the six	30% got three of the six
9% got 2 of the six	13% got one of the six

- 2 Identify the city skyline and what it is reflecting off.

This skyline is the city of Chicago reflecting off Cloud Gate. Cloud Gate, or the bean, is a sculpture created by Anish Kapoor. It provides some really cool reflections when you walk around and under it. Anish hates that everyone calls it the bean!! 82%

- 5 American company Nvidia pulled off one of the most unlikely comebacks in 2025. What happened?

In January they lost close to \$600 billion in market value when a competitor released their own AI chip. Then by October they had rebounded to become the 1st co. with a \$5 trillion market value. 37%

- 6 Venezuelan Adrian Simancas can be described as unpalatable. Why?

He was swallowed by a whale and then spit out!!! You have to google this and watch the video. 87%

- 8 The transformation below takes place annually in what European City?

These great images were captured by Marshall and Courtney on their trip to Valencia in Spain. 79%
